

COMS - PRO

CENTRAL OFFICE MANAGEMENT SOFTWARE

POWERFUL FEATURES COMBINED WITH STATE-OF-THE-ART DESIGN MAKE FOR A UNIQUE CENTRAL OFFICE MANAGEMENT TOOL THAT'S EASY TO USE.

What is COMS - Professional?

Coms-Pro Central Office Management Software is the focal point used to facilitate the information flow throughout MiChoice's school food service accountability systems. As an all-inclusive product, it serves the district food service department by providing a common data source for centralized free and reduced application processing, district meal accountability and government reporting.

Much More Than Just Data Storage

Often described as the single most important module in our integrated information system, Coms-Pro software is a feature-rich communications and data-reporting program offering much more than simply a means of data collection. Coms-Pro provides a wealth of centralized food service management reporting from a common database for accounts, to individual campus meal accountability reporting.

Flexible Enough For Any Size School District

Coms-Pro is scalable from a single user workstation to a client/server configuration making it flexible enough for small, medium and large school districts. It was created with the latest technology and is written in Visual Studio. Net and utilizes an Access 2000 or Microsoft's SQL 2000 database.

Information - When & How You Need It

This robust interactive software program allows for bi-directional transfer of data between the central food service office and each campus over the school districts wide-area network. Coms-Pro can effectively store, manage, and distribute the information in "Real Time" and becomes the central point for creating, finding and sharing the information, as you need it, when you need it.

Simply The Best Solution!
